

Feedback Of Boarding Week Brototype

I don't have anything bad to talk about the boarding weeks. I wasn't aware of too much details on interviews and communications also but now I'm aware of how to be in an interview with a good attitude. I was confident that I've the language but it wasn't enough so now I know that presenting ourselves with the language that we have has also importance.

Now I just need to improve on my technical skills and communications skills also with the information I got in these weeks.

Thanks to Mariya Ma'am, Jabeen Sir, Swetha Ma'am, Aneesha Ma'am for the support
